## Children's Body Parts Part 2

### Evil corrupt minds will do anything.

I am not trying to get fame from this evil subject: "For Sale: Children's Body Parts" and I am doing my best to resist my anger and rage. This world has stooped so low to such a magnitude of taking innocent children and literally destroying these precious souls by selling their body parts.

My heart is saddened by the religious leaders who are more concerned about their reputation than their calling from G-d when their concerns should be to speak out on behalf of those who are victims of a corrupt evil world.

I will never forget a few years ago outside of Mexico City. My wife and I were traveling down a highway when we noticed six young children standing on the highway all alone in the late afternoon. The youngest was three years old and the oldest was ten years old. When we stopped and asked them why

### They simply vanished.

they were standing there, the oldest told us their parents left them there yesterday and were traveling to the United States. (This simply cannot be a part of the American dream.) These children were left behind. We just could not believe it! Because we had Texas license plates, were foreigners and were sensitive to the laws of Mexico, we told them to stay and we would be back shortly with some food. My wife and I also went to get the police. When we came back they were gone. We asked a small business owner who sold plants and pottery if he knew where they were. All he could say was he saw a car stop and a man he had never seen before came out and picked them all up and took them away. The man we were speaking to told us he knew the parents of

the children, but did not want to get involved. That truly affected us all night. We could not sleep, but prayed for them. The next day we went back and again no trace of them. They just vanished. I have not been the same since. This is why our ministries are so important. Our hearts ache for the children we try to reach.

Selling human body parts, human trafficking, and sex slaves are a multi-billion dollar a year business and is very organized.

Crime against humanity is a horrific fact of the direction that our society has gone. The so-called "All Mighty Dollar" brings out the worst of people when they love it more than G-d, and the very, very, worst of evil comes out. These low life freaks could care less if there was a G-d or not. These EVIL PEOPLE could not have a soul for doing this. They are called the "Organ Mafia, Cadaver Hunters." Their prey is, in many cases, the children who are poor, helpless, and needy. Multitudes of Mexican children are being kidnapped and smuggled daily to America and other countries, and this is a fact. They take anything that can be transplanted or sold. This is not to mention the sex slave trade which I plan to share in the next issue of **THE NEWS**.

Recently in Los Angeles, California, it was reported by Hector Carrion that the human organ transplant industry is now under the control of an "Organ Mafia." This includes surgeons, nurses, and hospital administrators. I personally believe this to be a fact after my near-death accident. He also reported that the victims many times are indigent patients who often are bypassed for needed transplants and poor needy people who are victimized by the "organ snatchers" when their organs are

continued page 2

How much are they worth both spiritually and physically?

continued from page 1:

purchased and often stolen for use by wealthy patients. This horrific trade in transplanted body organs has had fearful consequences for some of societies most vulnerable, such as the homeless, undocumented immigrants, and Mexican children.

There is very little attention to this subject concerning the human rights abuses of the corrupt established "Organ Mafia." Many members of this evil group are operating in prestigious American hospitals. The high demand for human organs by rich, wealthy patients willing to pay high prices will always victimize the poor.

You will not believe the bill of goods that some were trying to sell me for a transplant that I declined! It is pathetic how evil the so called medical professionals have become. (Again this is not the majority.) Don't ever think that some big medical organization is above this. Think again! I know it to be true first hand.

For me to continue this research, I must stay at a low profile, and I will not reveal where I live or show a picture of what I look like today. In general I do very few e-mails or correspondence. Everything is screened for me these days. That's just the way it has to be. The fact is, this is a very serious subject and I hope to step on some more toes. I am grateful for a dedicated family and staff that believe in me to continue to reveal the truth as I understand it. It is so easy to turn the other side of the cheek and ignore the problem, especially when many believers are spineless. (I did not say all or most.) Generally speaking many want to hear messages of comfort without a challenge. I cannot tell you how many want to tell me how to run our outreaches and ministries, but cannot run their own family or their own life the right way and "The Right Way Is Yhwh, and Yhwh Is The Right Way."

Many have come for a week on the foreign field to help in our Sidewalk Sunday Schools and have become experts in how we should do our outreach. They write letters on what we are doing wrong, but are not willing to live like we have had to. It is just amazing what a person can say when they know they have a return ticket back home after seven days. I have not had my residence in the U.S.A. since 1984. I have watched a country that I love so very dearly fall into a soft way and now looks like an avalanche or an eruption ready to explode, and I hope I am wrong for I love you, America. I really hope I am wrong and wrong again! But I do not think so. In the next issue of **Freedom in Truth**, I have written an article called "Our Dear America." You really should consider ordering the issue.

We have received an overwhelming response on the subject of "Body Parts." Some have suggested I do more follow up and investigate more. I simply say this, "I do not work for the F.B.I., C.I.A., the Mexican or the Belize Governments." Unfortunately, Christian Advance International does not have a big enough budget to do such a task thoroughly.

Mexico D.F. is a city of 26 million people. It is not possible to follow up on each case. Many of the families we minister to do not even have an address. I know you do not understand how these families live under these conditions in Garbage City, and it is very easy to say if you do not live here. I feel a passion and a check in my spirit that this subject is way too BIG for Christian Advance International and puts too much pressure on our staff, but we will pursue justice and perhaps save some children's lives. We do our very best to seek the truth, especially for the sake of the children and the Kingdom of G-d.

Please pray for us and if you believe in us consider supporting this ministry and outreach.

**NOTE:** On March 9, 2006, **Prime Time 20/20** on ABC TV aired a documentary on the selling of human body parts. This subject is beginning to be brought to the forefront of national awareness. It is no longer a subject being ignored. I have been aware of these evil transactions since 1984. It is time we stand up as believers of the One True G-d and fight against the evils of this world so that our children can grow up in a safe environment for a healthy society and humanity.

### Hand of Love Sponsorship

Your **Hand of Love** sponsorship provides birthday gifts, Gospel teaching, medical clinic opportunities, and help fund our feeding program. Your prayers will help your child reach the potential God has planned. Mail in **The News** coupon or call **1-713-981-9033** to become involved.

### THE NEWS format has changed to have a greater world impact.

The previous issue of **THE NEWS** — "For Sale: Children's Body Parts; Why Do I Smell a Rat?" — is available for a donation of \$20 US (minimum) for 10 copies. Please tell us how many you would like to have; perhaps you could make others be aware of this gross evil sin against humanity. Share this with your church, synagogue, group, and friends.

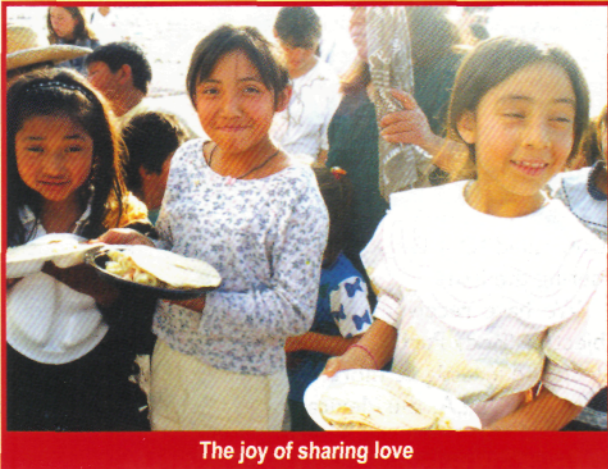

If you know someone who would like to receive future issues of **THE NEWS** please add them to our subscription list (\$20 US annual donation is requested).

Our mailing lists are not and have never been for sale. We do not accept credit cards because we believe it is not good stewardship to donate on credit with interest and fees going to a non-believer or a pagan that bills you higher than a tithe. We do not have 1-800 #s or prepaid postage envelopes. All of this takes food and other things away from the children, and the children we minister to are not for sale. This is a ministry with ethics. Thank you and G-d (God) bless you.

## Christmas to Remember Report 2005

Thousands were blessed with meals and this included toys for the "Hand of Love" children

The joy of sharing love

As always it is such a joy to help the children during this special Holy Day season each year. The C.A.I. staff in Mexico City is the best, and all of us work so very hard in reaching out to entire families in the garbage dump and in the poor neighborhoods. Thousands were blessed with meals and this included toys in the "HAND OF LOVE" sponsorships.

Our Sunday school director, Armondo, continues to amaze us with his leadership and his love for his Mexican

"HAND OF LOVE" sponsorship toys

people. This was so obvious this year as he was able to buy and receive donations that made this year's "Christmas to Remember 2005" a great success. Your support is very much appreciated and becomes a great blessing to many souls.

## Short Term Missions Trip Testimonial

### Even a Senior Can Do It

I know in my own life I will never be the same. The missions trip has changed me to the point of never taking anything for granted again. The fact I am an older adult, I may never be able to do another mission trip like this, but I will always keep CAI in my prayers. Great job! God bless.

Bonnie J. Sherman, Brookville, PA

## Summer School Testimonial

### Empty Vessels Waiting To Be Filled

My second year of teaching summer school in Silk Grass, Belize, has been an enlightening experience. So often we stay in our comfort zone and forget that there are places in this world where people are less fortunate than us.

The children of Silk Grass are anxious to learn but many are significantly below the reading level of children their age. There are six-year-olds who . . . cannot recognize letters of the alphabet.

This year I was not able to accomplish all I had planned for them but was grateful I was able to make a small contribution in their education. I encourage you to take a short term mission trip to Silk Grass. The need is great. The children are empty vessels waiting to be filled and are sponges ready to soak up what is being taught. Each day I thank God I was able to go.

Gloria Robinson,

A Teacher from New York City committed to the cause

## Short Term Missions Trip Testimonial

### The Things These Children Have To Deal With

This is my second time coming down to Mexico City and working along side Christian Advance International staff and both were life changing experiences.

Last year I experienced God in so many new ways and grew to know Him better than I did before. The trip had such a great impact on my life — what I also like to call the 'rock pile' moment. I came expecting, and God definitely delivered.

For four days we were a way for children to see how much God loves them. We were able to be the reason a child smiled that day; we were able to show that people care; and above all, that God cares for them. I think the area we visited that affected me the most—which is probably true for most of us on this trip—was when we visited the community next to the garbage dump.

The conditions these people live in I would probably never imagine, but now I have seen a glimpse. The things the children have to deal with and go through at such an early age is heart breaking — but they still smile, they still sing, they still laugh, they still jump. It is so admirable, so refreshing, so eye opening.

"In the same way your Father in heaven is not willing that any of the little ones should be lost," *Matthew 18:14*. Seeing these children and wanting nothing more than to hug them, feed them, clean them, clothe them, take care of them — I can only imagine what our Father in heaven feels when He sees His children living in these conditions. Of course God does not want or desire this for any of His children. That is why He has given so many people the desire to change circumstances, change the way things are, to change the world. I am just so grateful and honored that He was able to use me this year.

Rebecca Pratt

# Share a Thoughtful Expression of Peace

Peace is not a choice — it's a way of life

**Pray for the peace of Jerusalem: "May those who love you be secure. May there be peace within your walls and security within your citadels. For the sake of my brothers and friends, I will say, 'Peace be within you.' For the sake of the house of the Lord our God, I will seek your prosperity."**  
*Psalm 122: 6-9*

For a one time donation of at least \$25 US, we want to bless you with a beautiful set of greeting cards entitled **"Yearning for Peace"** (Twelve 4"x5" folder cards with envelopes. Printed on thick enameled card stock. No preprinted statement inside).

The original art on the cards is by a famous master international Jewish artist, BenTzion, a self-taught painter and poet who has been profoundly imprinted by his childhood in India and Israel and upbringing as a Kabbalist.

His vocation was encouraged by his Neveh Haddasa Mosad Institute "father" in Israel, the Hungarian painter Moshe Melamed, and later mentored by the renowned expressionist Yitzhak Frankel, "Frenel", in the sacred town of Safed in the Galilee. May their memory be blessed.

BenTzion is a descendant of Cohens (Moses and Aaron) of the Bene-Israel. As we pray for the peace of Jerusalem and the World and help the children, we are praying for your household to have peace.

Shalom, Shalom.

"Yearning for Peace" original art (32x40 pastel on black museum board) by BenTzion. Chosen by the Council of Jewish Federations for the 65th General Assembly.

## We Cannot But Speak

When the apostles were brought before the Council in Acts 4:15-20 they declared "...We cannot but speak the things which we have seen and heard."

Martha, my wife, and I have known the Jones' for about three years. Approximately two weeks after his horrible accident we visited him in the hospital on several occasions. If you have read the *THE NEWS* (September-October 2005) you have read about this accident which nearly took Chris' life. He was not the same man we had known — no energy, no zeal, and no drive. He laid in the hospital at the brink of death, his legs so swollen and filled with blood the doctors feared he would not be able to keep them. He was covered with abrasions. He had lost 30 pints of blood, and could not walk or talk. His injuries were so numerous they filled a page.

Upon being discharged from the hospital, the doctors gave him three months to live! We saw him on several occasions in the hospital, later on crutches, and then in a wheel chair, unable to walk.

Today, I can testify in the words of the apostles, I am a "witnesses of all the things which He (Jesus) did." Today, Chris is very much alive — walking, talking, praying, and singing the praises of God. A miraculous healing has taken place in his body. He still has many physical challenges, and still bears evidence on and in his body of having been hit by an automobile, not once, but twice, and being slammed against the hood.

Today many of us can testify and Chris can well sing the words of the old song, "Thanks to Calvary, I am not the man I used to be ..." Because of Calvary, divine healing is being appropriated in his body to the glory of God. The doctors are stunned! We are praising God!

As Chris will testify: Never underestimate God's power to heal even in the most desperate circumstances — when everything has failed — but not God! God never fails to keep His Word. Let us take heed of God's Word, and continue to lift up God's servant and believe for total and complete healing.

David Opie
