Dear Bruce:

First, let me again say how much I enjoy receiving your thoughtful and thought-provoking sermonets. Somehow, I feel God is working through you for our El Paso family. Second, I know the plant has been going through turmoil lately. I was wondering if you could give me some insight as to the problems, the remedies and how the team is progressing towards them. I'd appreciate your perspective if you're willing to share it.

Thanks in advance.

Regards,

Kendrick B. Melrose
